

TARP RIGGING HARDWARE

Dutch Hooks™

The Dutch hook is to the continuous ridge line what the Dutch clip is to webbing suspension. Made of titanium this little mighty hook will hold up to the strongest winds and only weighs .4 grams. It ties to the end of your 1.75mm tarp line and you just simply reach around the tree and hook the line.

Designed for the weight-conscious hiker.

$\frac{5}{8}$ in. (1.6 cm.)
 $\frac{3}{16}$ in. (4.8 mm.)

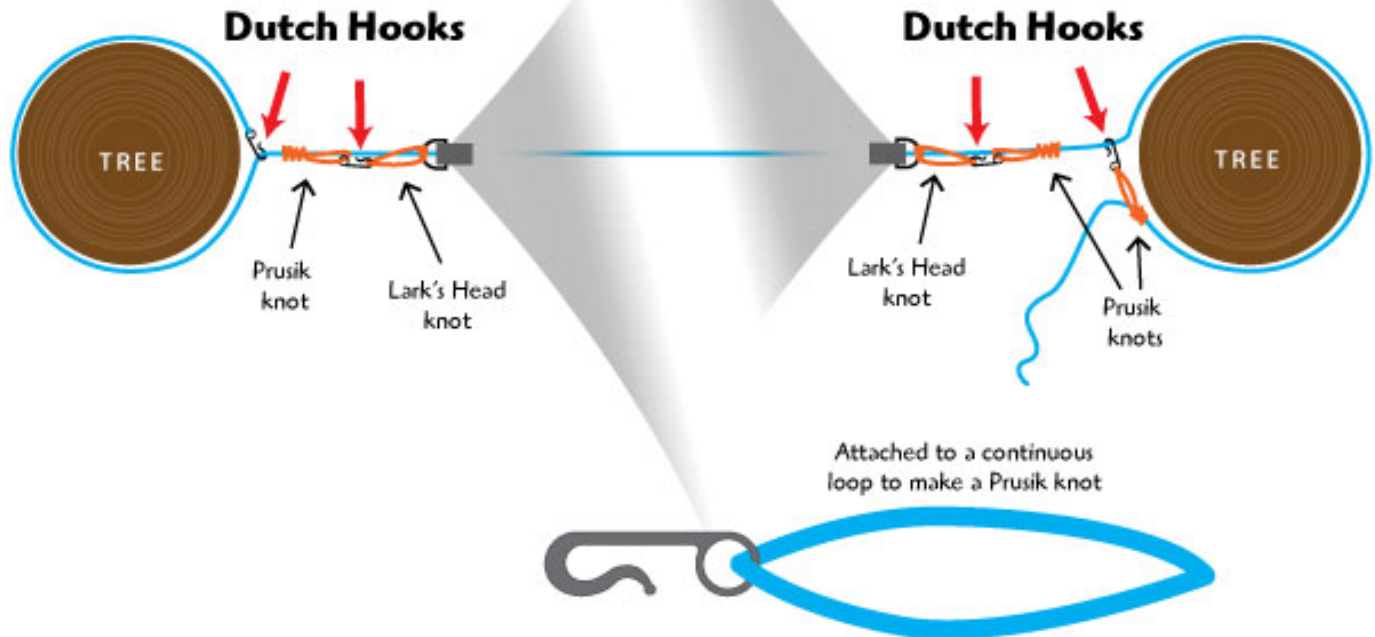

titanium | 0.4 grams
use with 1.75mm line

Two-half Hitches
or other stopper knot

Fixed eye loop
with locked brummel

HOOKED ON
DutchWare™

It is the user's responsibility to inspect suspension for wear and proper installation.
