

TARP RIGGING HARDWARE

Tarp Flyz™

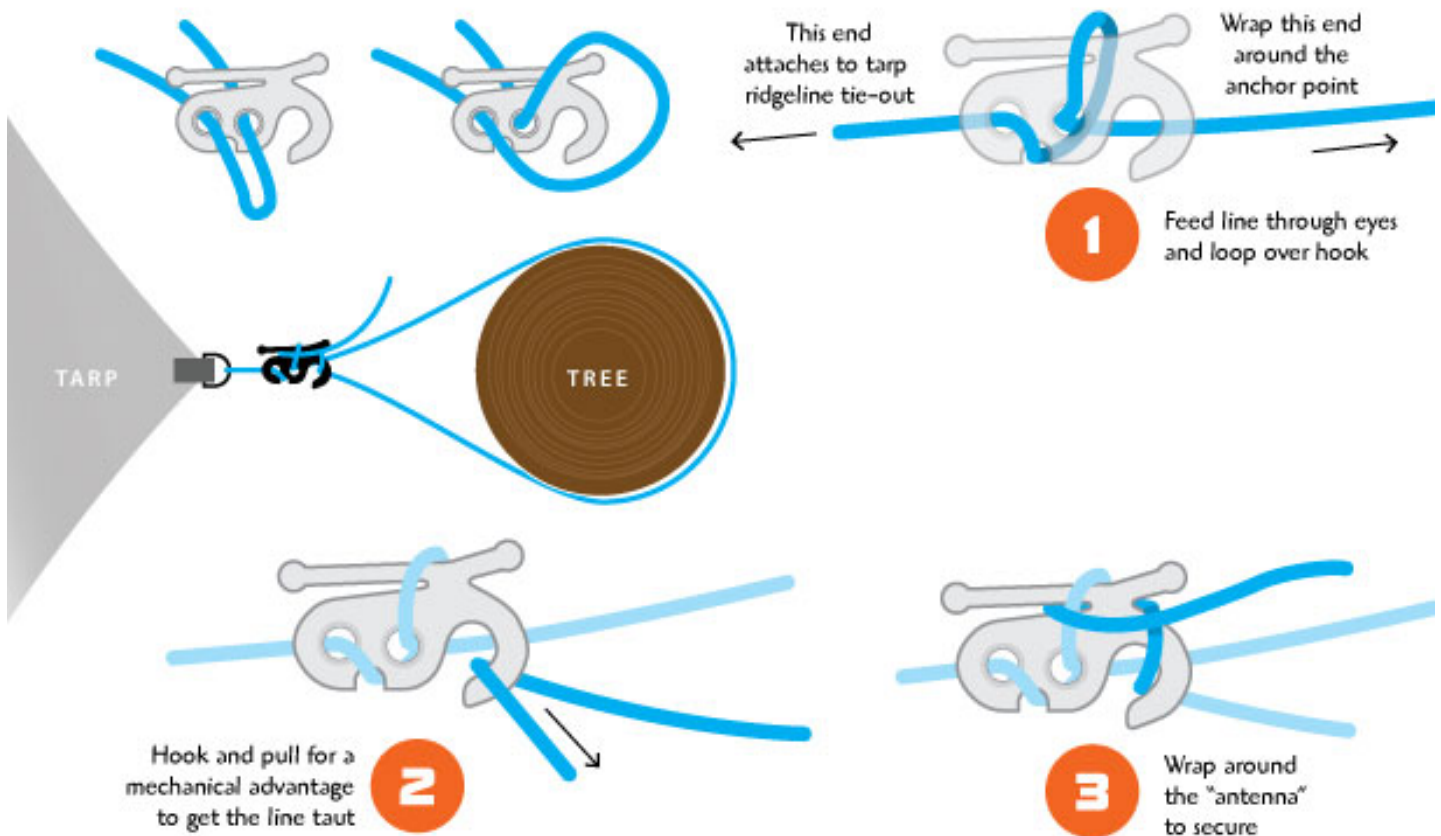

Tarp Flyz are designed to connect your tarp to a tree (or other anchor point) with thin 1.75 mm hollow braid line. Made from titanium, Tarp Flyz are the smallest, strongest, and fastest way to rig up a tarp without actually tying and untying a knot, even when wearing gloves.

Designed for the weight-conscious hiker.

titanium | 2 grams
use with 1.75mm line

HOOKED ON
DutchWare™

It is the user's responsibility to inspect suspension for wear and proper installation.
